

## Population and Settlement

Knowledge and Understanding	Skills
<p><u>Students are able to:</u>  <b>Assess</b> the factors leading to changes in the UK population  <b>Evaluate</b> the advantages and disadvantages of living in urban and rural areas  <b>Evalauate</b> the advantages and disadvantages of an ageing population in the UK  <b>Evalauate</b> the ways of managing populations  <b>Explain</b> the link between population pyramid shape and population characteristics</p>	<p><u>Students are able to:</u>  <b>Identify</b> anomalies from a data set of UK population data</p>
<p><u>Students are able to:</u>  <b>Describe</b> how the UK populaiton has changed in detail using data  <b>Compare</b> population pyramids of the UK and Tanzania  <b>Explain</b> a wide range of factors affecting birth rates and death rates  <b>Explain</b> how development affects birth rates and death rates  <b>Explain</b> different ways in which populations can be managed  <b>Compare</b> urban and rural living areas</p>	<p><u>Students are able to:</u>  <b>Calculate</b> ranges of data from information about the UK population.</p>
<p><u>Students are able to:</u>  <b>Explain</b> why different groups of people have migrated to the UK  <b>Describe</b> how the UK population has changed using data.  <b>Describe</b> how birth rates and death rates have changed over time in the UK  <b>Suggest</b> reasons for changes in birth rates and death rates  <b>Describe</b> the population pyramids of the UK and Tanzania.  <b>Describe</b> some advantages and disadvantages of ageing populations  <b>Describe</b> some ways in which populations can be managed  <b>Describe</b> some advantages and disadvantages of urban and rural areas</p>	<p><u>Students are able to:</u>  <b>Draw</b> a line graph to show population change in the UK  <b>Calculate</b> natural increase from birth rates and death rates.  <b>Identify</b> data from a population pyramid</p>

Students are able to:

**Name** groups of people who have migrated to the UK.

**State** some reasons why people have migrated to the UK.

**Describe** how the UK population has changed over time.

**Define** the terms birth rate, death rate and natural increase.

**Identify** changes in birth rates and death rates in the past.

**Identify** different population pyramid shapes.

**Identify** population shapes from countries at different levels of development.

**State** some advantages and disadvantages of an ageing population

**State** some ways in which populations could be managed

**State** some factors affecting the location of early settlements.

**Name** and **draw** the three main settlement shapes.

Identify some advantages and disadvantages of urban and rural settlements

Students are able to:

**Identify** highest and lowest values from a data set

**Plot** population data on a line graph

Identify birth rates and death rates from a data set

**Identify** different settlement shapes on an OS map

Identify values from a population pyramid.

Identify urban and rural settlements using photographs
